

Top 10 Reasons I Love Mrs. Webster

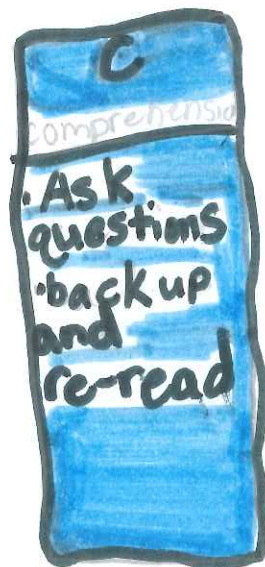

10. You help me learn to be a better writer by teaching me to use hooks, strong beginnings, inferences, idioms and similes. When I use those things my writing is so much stronger, thanks to you!

9 ● **During social studies you have fun games to learn what it was like and to learn about the revolutionary War, the pilgrims and the puritans. You always make learning FUN!**

S ● You teach me many strategies from the C.A.F.E posters on the wall, like check for understanding and back up and re-read to help me get better!

7 ● You turn any writing piece or something new we've learned into something fun like a game or a dance and song. It always makes me excited to learn!

**6. You are always kind,
nice and you give second
chances when people aren't
behaving. Also, you're
never mean to me and I
really like that about you!**

You're
Kind!!
😊

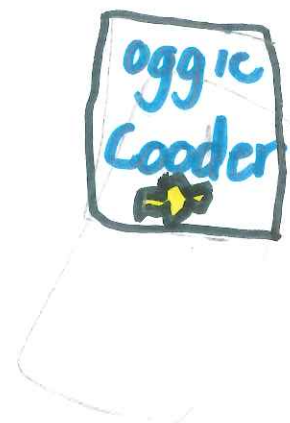

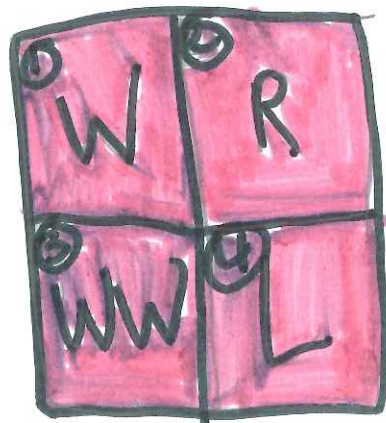

5 ● Every time I walk into your classroom I have a smile on my face because I know that whatever we learn you're going to make it unique!

4 ● Whenever we learn something new you always have a song and/or dance to go with it. You even have a song for something we always get... like **BOX TOPS!**

3 ● One thing I really liked this year was Daily 5 because you got to do your work by yourself, not in a whole class. I sometimes lose focus if we are doing work in a whole class because it takes a little longer and some people don't get things so we have to wait, but now we don't because we do Daily 5!

2 ● I love when you do read aloud because when you read a book you can relate it to another book just like we're doing right now with The Borrowers and Poppy. The best thing about read aloud is you get to ask yourself questions, make predictions and notice what different authors do in their writing. That is why I love read aloud!

1 ● You have been the BEST friend and teacher this year because all of those reasons from 10-1, also I think you are the #1 BEST third grade teacher in the whole entire world!
